some monograms and initials in use

Hollywood Monograms

Fonts contain three characters of every letter in the alphabet and an Mc and Mac. The same character is cast in three different positions on the type body. With the exception of M, W, Mc, and Mac (cast 12 point set), all characters are cast 8 point set and require no justification. The M, W, Mc and Mac, when used with 8 point set characters, require slight justification in order to give the desired slope. Sold in complete fonts of outline or tint characters as described, or in 3-letter monograms for either one or two colors.

36pt Diamond Monograms

Fifth Avenue Monograms

(with mortised frames)

Fonts of initials contain three of each letter cast on 54 point body, and three of each letter cast on 24 point body. The M and W are 8 points wide; all other characters are 6 points wide. Sold in fonts containing 156 characters, or in monograms containing any three characters.

Frames are cast on 72 point body in two mortised pieces. The seven widths accommodate any two- or three-letter combination. Sold by the single pair, or in sets containing one pair of each of the 7 styles shown at right.

Combinations consisting of any 3-letter monogram and a single pair of frames may also be ordered.

48pt, 60pt Virkotype Monograms

(both with tint & outline)

Sold in 2- 3- 4- or 5-letter monograms combining either outline or tint characters, or in sets containing the entire 81 outline or tint characters shown.

72pt Georgian Initials
